### Racemi Names Vice President of Engineering

**ATLANTA, February 20, 2008** – Racemi has named Casey Koons vice president of engineering -- overseeing all product development and quality assurance efforts.

Koons joins the Racemi management team with more than 25 years experience managing the engineering teams for leading software products. Most recently, he was the principal engineer at Reflex Security. Previous positions include the director of software engineering for Internap and the vice president of engineering at Intelispan. He also spent 14 years as the founder and president of Cooperative Networks, a company focused on network management systems, communication systems and VPN products. Koons holds a Bachelor of Science in Computer Science from Purdue University.

"Casey's experience and management style are a real asset to the Racemi team," said Richard Stansbury, CEO of Racemi. "His technical and managerial contributions in directing product development and quality assurance will continue to drive customer satisfaction and rapid product innovation."

#### **About Racemi**

Racemi, a virtualization company, provides a next-generation server imaging and migration technology, delivering the broadest platform support and price performance in the industry. With built-in support for physical and virtual migration, disaster recovery, and image capture and deployment across dissimilar hardware, Racemi provides simply more.
