Racemi Closes \$3.4 Million Series A-1 Round, Adds Management Muscle

-- Pattillo Investments, LLC Executes Follow-on Investment --

ATLANTA, February 20, 2007 – Racemi, Inc. announced today the closing of its Series A-1 round of funding and the addition of two senior technology executives to its management team, Richard Stansbury and Lorraine Bassett. Racemi provides software that ensures organizations optimize data center operations by maximizing the utilization, reliability, agility and cost-effectiveness of their IT assets.

Atlanta-based Pattillo Investments, LLC executed the follow-on investment of \$3.4 million to lead this round.

“Racemi is in the right space at the right time,” said Robert Pattillo, Founder of Pattillo Investments, LLC and a member of Racemi’s board of directors. “As increasing numbers of enterprises seek to optimize their data center operations, Racemi is ideally positioned to generate market interest and garner significant market share. In addition to its elegantly architected software, Racemi has attracted a solid, experienced management team to execute on its plan. We’re delighted to be a part of the Racemi team and are delighted by its recent progress.”

Named CEO in addition to his duties as chief sales officer, Richard Stansbury joined Racemi with 25 years of operations and sales experience with two technology companies that provided specialized software applications and consulting services, Public Systems Associates, Inc. and BORN Information Services. At PSA, a national leader in the development and delivery of customized legislative applications to state legislatures, Stansbury held the positions of VP of Operations and VP of Sales during his 15 years at the company. He joined BORN Information Services, Inc. in 1996 to open its Denver branch, which he grew until he came to Atlanta to open its Atlanta operations in 1998. The company was acquired in 2005 by Fujitsu Consulting. He holds a Master of Public Administration from the University of Colorado and a Bachelor of Arts from the University of North Carolina.

“An emerging market is seeking the types of data center automation, disaster recovery and data center migration solutions we offer mid to large enterprises. Racemi offers an exciting opportunity to leverage a proven

architecture to provide solutions that improve the customer's bottom line," said Stansbury. "Part of our delivering value is hiring talented professionals. Adding Lorraine Bassett to the management team underscores our strategic commitment to maximize relationships with select channel partners."

Over the last 20 years, Ms. Bassett has designed, built, managed and executed global technology and business development initiatives for organizations as diverse as EMC, System Management ARTS, the Confluence Group, Concord Communications and Compaq Computers. More recently, she has managed global system integrator and reseller partnerships including Cisco, Microsoft, EMC, Dimension Data and Siemens Business Services worldwide. Ms. Bassett has a Bachelor of Computer Science from Hertfordshire University, Hatfield, UK. She has a Diploma in Management and an MBA from Henley Management College, Henley-On-Thames, UK.

About Racemi

Racemi provides certainty to enterprises seeking to optimize data center operations by maximizing the utilization, reliability, agility and cost-effectiveness of their IT assets. DynaCenter®, the company's flagship systems management software solution, is ideal for alternative use of idle disaster recovery assets, data center relocations, lab and test environments, managed hosting and utility computing.
