Emtec Joins Racemi's Channel Partner Program

ATLANTA, July 17, 2007 – Racemi, Inc. announced today that Emtec, Inc. (NASDAQ: ETEC) a leading IT solutions integration firm, has joined Racemi's Authorized Partner Program as a certified reseller and services provider. With access to DynaCenter®, which enables virtualization across all technology domains, the Racemi Authorized Partner Program offers Emtec access to products, training, sales, marketing and technical support for immediate short-term revenue opportunities.

Lorraine Bassett, executive director of channel development for Racemi, said, "As one of the leading solutions firms in the country and a perennial member of the VARBusiness 500, Emtec brings to our Authorized Partner Program broad and deep exposure to the many pressing challenges data centers face in optimizing their operations. We are excited to have them on board as we continue our push to transform data centers into fully utilized, wholly flexible and agile command centers for enterprises."

Colwyn Warner, CKO of Emtec said, "Racemi's DynaCenter technology is enormously powerful and robust, allowing clients to do more with less. Based on our analysis of the market and competitive offerings, we're confident Racemi's platform offers our clients far more functionality and opportunities to optimize data centers. We look forward to bringing this technology story to our clients."

Racemi helps enterprises create, manage and optimize next generation data centers with technology, tools and processes that offer maximum flexibility, achieve the lowest total cost of ownership and minimize risk. DynaCenter provides optimum mobility by allowing enterprises to take applications running on one server and easily move them to another server with hardware which may be dissimilar. Completely scalable, DynaCenter can take applications running on hundreds or thousands of servers with different operating systems and move them to new hardware within a data center or at a geographically distant location as fast as a warm boot.

About Racemi

Racemi provides certainty to enterprises seeking to optimize data center operations by maximizing the utilization, reliability, agility and cost-effectiveness of their IT assets. DynaCenter®, the company's flagship systems management software solution, is ideal for alternative use of idle disaster recovery assets, data center relocations, lab and test environments, managed hosting and utility computing.
